Benefit Highlights

Hospital Confinement

Hospital confinement insurance is a type of supplemental health insurance that provides coverage specifically for periods of hospitalization. This type of insurance is designed to help with the costs associated with being hospitalized, which can include expenses such as room and board, medical procedures, and other related medical services.

Observation Benefit

Your Hospital Indemnity Select policy provides benefits if you are confined to an observation unit. The primary purpose of an observation unit is to closely monitor and evaluate patients, usually for a short period of time, who do not require full inpatient hospitalization, but need more intensive monitoring and evaluation than can be provided in an outpatient setting.

Mental Health

Mental health in the United States is a complex and multifaceted issue that affects millions of individuals and families across the country. Stigma surrounding mental health is a significant barrier to seeking help and treatment and many individuals may feel reluctant to discuss their mental health concerns due to fear of judgment, or discrimination.

Emergency Room

ManhattanLife understands that accidents and emergencies happen, making this benefit crucial to a well rounded plan. This benefit will pay per day for each day the Insured receives Emergency Care or Urgent Medical Care in an Emergency Room or Urgent Care Facility for an injury.

Benefit Highlights

Ambulance

Ambulance Benefits are a critical component of a Hospital Indemnity plan, providing emergency medical transportation for individuals in need of urgent care. We will pay this per one-way-trip benefit when ground or air transportation in an ambulance is used by an Insured who needs Emergency Care for a covered event.

Skilled Nursing

Skilled nursing services in the United States refer to a range of medical and rehabilitative services provided by licensed healthcare professionals within skilled nursing facilities (SNFs), nursing homes, and home healthcare settings. These services are designed to care for individuals with medical conditions or recovery needs that require a higher level of care and expertise than what can be provided in standard assisted living or residential care settings.

Short Duration Hospital Stay

We will pay this per day benefit if the insured receives care while in the hospital for 12 to 24 hours and no more than 24 continuous hours for sickness or injury.

Payments directly to you when you need them most.

Upon approval, claim benefits are paid directly to the policyholder, regardless of any other insurance they may have. This benefit disbursement can then be used to offset co-payments and deductibles, car payments, mortgages, credit card bills, the choice is truly up to you.

Claim Example: Eric

Eric is 47 and lives in Tampa, FL. Last fall, Eric caught pneumonia and spent 3 nights in the hospital. Although Eric has an ACA plan, his out-of-pocket expenses and deductibles for the hospitalization cost him \$8,000.

Fortunately for Eric, he had previously purchased a Hospital Indemnity Select plan with ManhattanLife. The plan Eric selected provided a 1 Day Hospital Confinement Benefit of \$9,450 since Eric wanted to match the Out-of-Pocket maximum in his ACA plan. Eric was able to set aside the additional \$1,450 he received from this claim to help cover any future deductibles or out-of-pocket costs or to use as he sees fit.

This Policy Paid Him:	
Eric's Out-of-Pocket Expenses	\$8,000
Benefits Paid by ManhattanLife	
1 Day Hospital Confinement Benefit	\$9,450
Total Amount Paid to Eric	\$9,450

Eric can use the remaining funds however he likes. These additional benefits could be set aside to help cover future medical or Rx expenses.

Claim Example: Barbara

Barbara was very grateful ManhattanLife’s Hospital Indemnity plan was there for her! Barbara is 66 and lives in Texas. Last winter, Barbara was diagnosed with strep throat and bronchitis. Her condition then worsened, and she was admitted to the hospital where she utilized (4 days) of her 6-day benefit. Although Barbara had a Medicare Advantage Plan, her out-of-pocket expenses quickly ballooned to \$1,500 (\$500 for an admission copay and a \$250 copay per day (4) for hospitalization).

Let’s look at how it worked out for Barbara	
Barbara’s Out-of-Pocket Expenses	\$1,500
Benefits Paid by ManhattanLife	
Lump Sum Hospital Rider Benefit	\$750
Hospital Confinement Benefit (\$700 x 4 days)	\$2,800
Total Amount Paid to Barbara	\$3,550

Because Barbara had an active ManhattanLife Hospital Indemnity Select plan in place with a Lump Sum Hospital Admission Rider (\$750) and a 4-day Hospital Confinement Benefit (\$700), she was able to offset her out-of-pocket costs with this \$3,550 in paid benefits.
